1.8 Respecting Age

Objectives
Identify attitudes, biases, or preconceived notions about the temperament, ability, and other characteristics of older adults.
Understand the effects of disempowering language on this group of people.
Examine assumptions about the definition of the “norm” as it relates to age.

Materials needed
Pen and paper; copies of the handout

Time needed
Five to ten minutes

Instructor directions
Have your students consider certain descriptive words and phrases often applied to older adults.
Ask them to identify the assumptions inherent in these descriptors.
Ask them to consider the “norm” as it relates to age.
1.8 Respecting Age Handout

Directions
Consider the terms below and answer the following questions:
To which age group are they routinely applied?

What connotations (assumptions) do they convey about the temperament, ability, and other characteristics of this age group?

How does the use of such terms disempower the target group?

What is the “normative” age group?

Well preserved  Fogey
Crotchety       Alert
Spry/Sprightly  Saintly
Spunky          Feisty
Over the hill   Biddy
Decrepit        Ancient
Crusty          Battle-ax
Now, write sentences applying each of the terms to the “normative” age group.

Answer the following questions:

Do the descriptors sound incongruous, diminutive, or condescending when applied to the “normative” group?

Is “derogatory” in the ears of the listener or the mouth of the speaker?
